

PRODUCT DATA SHEET

SO-CHEM DF- 47 SW Anti- Foam

GENERAL DESCRIPTION

So-Chem DF- 47 SW Anti- Foam is a water soluble product. The main ingredient is 10% active silicone. This product is specially formulated to control foam in produced water and water flood systems.

APPLICATION

In Water Injection Plants using sea water foam elimination is critical for two main reasons:

1. Prevention of foam over-flow in the deaerator.
2. Prevention of cavitation in the water injection pumps.

So-Chem DF- 47 SW Anti- Foam is injected into the feed water will eliminate the above mentioned problems and ensure continuous water injection into the formation.

For Cooling Tower Systems **So-Chem DF- 47 SW Anti- Foam** will also prevent built-up of foam in the water collection basin.

So-Chem DF- 47 SW Anti- Foam is effective when added prior to foam generation or when added to control existing foam. The Product disperses in water systems with moderate amounts of mixing.

So-Chem chemical personnel can advise on treatment and application volumes.

TYPICAL PHYSICAL PROPERTIES:

Physical Appearance:	Liquid
Color:	White
Odor:	Mild
Specific Gravity @ 25°C:	1.05
Viscosity:	1.513cps
Solubility in Water:	Dispersible
Non-Volatile Content:	13.01 %
pH:	3.8
